SERVICE LETTER: 14

SUBJECT: Pump-Out Tubes.

FLOAT MODEL: All floats with nylon plastic Pump-Out Tubes.

COMPLIANCE REQUIRED: Inspect Pump-Out Tubes before next flight. Check floats for water in floats visually as usual before each flight.

BACKGROUND INFORMATION: All float compartment Pump-Out Tubes are to be checked for disconnection or leaking joints. Unsealed or disconnected joints may result in water filled compartments.

METHOD OF COMPLIANCE: Install tube clamps to all connections.

PARTS REQUIRED: P/N 5713 clamps (US Plastics).

SHOP HOURS REQUIRED: 1 - 2 Hours.
